

Leatherhead Cricket club - ClubSports365

Responding to availability requests

28 days prior to training you will receive an availability email request and app notification. There are two ways you can respond to these:

Option one: If you have not downloaded the ClubSports365 app please do that. Once that's done log in, click on your child's profile, click on schedule at the bottom and then at the top click the arrow so the correct month comes up. You will then be able to click on the date in question and set availability and save. You won't be able to do this for the 2nd date yet because the system is set to one month before. Fixture availability will be the same but you can only provide availability once we confirm we are comfortable with the fixtures being release.

Option two: which is not as simple as option one, is to click on the availability link in the email. It will take you to the website. Top right hand corner click the 3 lines. Then select login. Once you have logged in you can go to your child's schedule and set their availability.
